

Change in Accounting Methodology for Pro-Bono Accounting Services

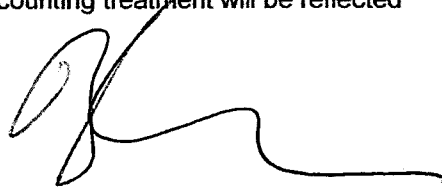

This note explains the change in accounting treatment between the years 30 June 2021 and 30 Jun 2022 in respect of pro bono accounting services provided to Aminata Maternal Foundation (AMF).

For the year ended 30 June 2021 (and in prior years) pro bono accounting services provided by Ernst & Young (EY) were recorded in the same amount in both 'donation income' and 'other expenses' in the audited financial statements. For the year ended 30 June 2021 an amount of A\$74,000 was recorded in both income and expense, being the commercial value attributed to the services provided by EY. The impact on the net surplus for the year was Nil. No amount was physically paid to EY for accounting services provided.

For the year ended 30 June 2022 the value of pro bono accounting services received by AMF from BDO Australia was not reflected in the audited financial statements. Therefore, no amount was recorded in either income or expense. This change of accounting treatment will be reflected going forward.

Surplus recorded year Ended 30 June 2022 v 30 June 2021

For the year ended 30 June 2022, donations made to Freedom From Fistula Foundation (FFFF) totaled A\$51,601 versus A\$220,000 in the prior year. This reduction was due to the timing of the payments in respect of the year ended 30 June 2022. An additional amount of \$118,000 was paid in November 2022 in respect of the surplus for the year ended 30 June 2022. Total payments made to FFFF in respect of the surplus for 30 June 2022 therefore totaled A\$169,601.

AMF seeks to distribute net surplus funds to our charity partners as quickly as practicable whilst ensuring that sufficient working capital funds are retained to support ongoing fundraising activities.
